

2nd HRMMW Goals

- ◆ Reviewing ongoing activities related to HRMM and 1st Workshop recommendations
- ◆ Develop framework for implementation of 1st HRMM Workshop recommendations
 - Setting priorities for each platform type
 - Coordinating activities among various groups
 - Setting goals that meet science and user needs
 - ✦ Operational and research
 - Pilot projects (for data pathways, calibration, platform comparison)

2nd HRMMW Goals

- ◆ Engaging user community to determine their needs and potential application of HRMM data
- ◆ Opening dialog with UNOLS, ship operators, moored platform programs to begin implementation
 - Determine our needs to do science (parameters, accuracy, etc.)
 - Survey existing vessels and moored networks
 - Identify where needs can be met or are currently deficient
 - Coordinate with UNOLS council and other steering groups
- ◆ Determine how best to interface with JCOMM, WCRP, IOOS

2nd HRMMW Outcome

- ◆ Framework for implementation plan
 - Outline areas of responsibility
 - Product pathways
 - Data access policy (if any)
 - Cost estimates (where possible)

- ◆ Action items for following year

- ◆ Schedule with achievable targets
