

Curriculum Vitae

May 17, 2007

First Name: **Dong Wook** Last Name: **Shin**
Affiliation: Center for Ocean-Atmospheric Prediction Studies (COAPS)
Florida State University
Status: Assistant Scholar Scientist

Work Address: Florida State University
COAPS Suite 226, Johnson Bldg.
Tallahassee, Florida 32306-2840
Voice) (850) 644-9138
Fax) (850) 644-4841
E-mail) shin@coaps.fsu.edu
Home page) <http://www.coaps.fsu.edu/~shin>

Education:

- Ph.D., Meteorology, Florida State University, Fall 2001
Dissertation: Short- to medium-range superensemble precipitation forecasts using satellite products.
- M.S., Meteorology, Florida State University, Fall 1998
Thesis: Tropical precipitation forecast and its related energetics.
- M.S. (not completed), Atmospheric Sciences, Pusan National University, Korea, March 1995-December 1997
- B.S., Atmospheric Sciences, Pusan National University, Korea, February 1995

Employment:

- Assistant Scholar Scientist (Faculty), Florida State University, 3/2007-present
- Research Associate (Faculty), Florida State University, 8/2004-3/2007
- Postdoctoral Associate, Florida State University, 1/2002-7/2004
- Research Assistant, Florida State University, 3/1997-12/2001
- Teaching Assistant, Florida State University, 9/1998-12/1998
- Research and Teaching Assistant, Pusan National University, 3/1995-8/1996
- Military services, 4/1992-10/1993

Research Experience:

- Seasonal dynamical hurricane forecasts

- Dynamical downscaling for crop model application
- Coupling of the land model (CLM2) to the FSU global and regional spectral model
- FSU regional climate work with parallelization programming
- Development and maintenance of the FSU real-time superensemble NWP
- Treatment and utilization of satellite data
- Improvement of the FSU global spectral model
 - Physical initialization
 - Cumulus parameterization
 - Precipitation processes
- Ensemble prediction methodology
 - EOF-based perturbation method
 - Breeding vector method and singular vector method
 - Kalman filter
 - Probabilistic forecasts

Professional Activities:

- Journal, Book, and Proposal Reviewer, 1997-present
- Member of Korean Meteorological Society, 1998-present
- Member of American Geophysical Union, 2004-present
- Member of Korean Atmospheric Scientists in America, 1997-present

Major Tools for Research:

- NWP and climate models experienced with: NCAR/MM5, NCAR/CCM3, FSU Data Assimilation Model, FSU Global Spectral Model, FSU Nested Regional Spectral Model, etc
- Computers: CRAY series machine, IBM SP series machine, IBM RS6000 model 270s, DEC & SGI Workstations (Origin 2, 200, and 2000), PCs, etc
- OS: UNIX (C-shell, Bourne shell, Korn shell, Perl, Awk, etc.), UNICOS, etc
- Programming: FORTRAN (f77, f90), Visual BASIC, Pascal, C, Shell script, HTML, JAVA script, etc
- Display: GrADS, NCAR graphics, GEMPAK, IDL, XVGR, XV, etc
- Statistical tools: SAS, Minitab, etc

Refereed Publications:

Shin, D. W., S. Cocke, and T. E. LaRow, 2007: Diurnal cycle of precipitation in a climate model. *J. Geophys. Res.*, doi:10.1029/2006JD008333, in press.

Cocke, S., T. E. LaRow, and D. W. Shin, 2007: Seasonal rainfall predictions over the southeast U.S. using the FSU nested regional spectral model. *J. Geophys. Res.*, **112**, D04106 doi:10.1029/2006JD007535.
